Dive site profile:

Situated on the Caribbean mainland coast of Central America, Belize rightly deserves its reputation as one of the region's best diving destinations. The warm, clear water of Belize means that conditions are often ideal for exploring the underwater realm. From shallow, clear reefs to spectacular drop offs, Belize caters for scuba divers of every experience level. Lighthouse Reef is known for its breathtaking deep walls, soft coral and sponge gardens including some spectacular spur and groove formations. There is a great mix of large pelagics and small reef creatures. Each of the major dive destinations offer shallow coral gardens or reef flats. This means that they are all suitable for casual and inexperienced divers.

Hotel:

CORONA del MAR: is a small "boutique" hotel located approximately a mile from San Pedro airport and mile from town. Hotel amenities include a swimming pool & adjoining restaurant/bar. The rooms have great views, air-conditioning, refrigerators & a TV. This small property is immaculately clean, located on the beach with restaurants nearby.

ISLAND DIVERS: The premier PADI 5 star dive operation in Belize offering diving and adventure tour packages to you and your friends. Our goal is to provide you with an experience that is truly unforgettable - and that will bond you with us as trusted friends for life.
