

PLANET SCUBA

DIVE INTO OUR UNIVERSE

We invite you to join us on one of our exciting group, instructor escorted trips!

Belize-Ambergris Caye

Do your open water certification dives
and/or
Advanced Open Water Program

Dates:

1 July 2017 – 8 July 2017

Dive site profile:

There are more than 20 miles and 40 established dive sites available along the Belize Barrier Reef one-half mile east and parallel to Ambergris Caye. This is a section of the Great Western Caribbean Barrier Reef, the longest continuous stretch of reef in the western hemisphere. Although there is considerable diversity, sites immediately accessible to Ambergris Caye can be categorized as deep canyons or walls, medium depth to shallow coral gardens and the aforementioned unique Shark-Ray encounter. Most dive sites are 5 to 20 minutes from the hotel dock. The cuts through the reef access the deep sites, which normally offer 70 to 80 foot dive profiles. The outer reef is a continuous massive spur and groove system, which eventually tumbles to a deep wall. The characteristic features of most deep sites are arches, swim-throughs, fissures and canyons that invite a meandering, maze-like exploration. Most sites feature excellent reef fish populations and the opportunity always exists for exciting pelagic encounters. Water temperatures are typically Caribbean- tropical and visibility nearly always hovers around the 100-foot mark. Popular deep sites we visit include **Victoria Tunnels**, **M and M Caverns**, **Cypress Canyons** and **Tres Cocos** . We will be diving with Island Divers Belize.

Hotel:

Banana Beach:

Banana Beach is a beautiful resort on the shores of the Caribbean in Belize, nestled on the best stretch of Beach on Ambergris Caye. The resort is just far enough from town for real tranquility.

The suites all have full kitchen and living room area. All furnished with locally made Rattan furniture, decorated with ceramic art and hand woven tapestries from the Yucatan.

Price (based on check/cash) : \$ 1199.00 / Non-Diver Price: \$899.00 //
