

PLANET SCUBA ADVENTURE TO THE PHILIPPINES: June 18-28, 2021

We are planning a very special trip to the Philippines for 2021. It is a trip custom designed by Planet Scuba to take advantage of a distant reef and a few great wrecks. I have wanted to dive Tubbataha, which is a protected marine park and a UNESCO site, for quite a while and have had a desire to do a few days exploring the wrecks of the Coron area.

Tubbataha can only be dived during the late spring & early summer. It is a distant reef and not visited by many ships and divers. I have chosen the last trip of the season so that we can have the boat for a few extra nights and reposition it in the Coron area. In September of 1944, the U.S. surprised the Japanese fleet while anchored in Coron, sinking 12 war ships. Although many of the ships are in muddy waters, we have chosen specific wrecks further on the reef for their better visibility and marine life (for you non-wreck enthusiasts).

Our itinerary is not set in steel yet, but a preview is below. We will have the opportunity to customize which wrecks we would like to do but the ship's owner has suggested these. Additionally, if you are not into diving wrecks we will provide transfers to the outer reefs as well. I have also included a link to the ship: this is the only trip we have ever offered where pricing is by location and size. We are offering this trip by invitation only. We would love to have you join us on a great adventure!

Let me know if you are interested and I can forward additional details. We are planning a full boat charter of 20 people.
